Certificate – Environmental Science & Natural Resource Requirements 31 Credits

The Environmental Science and Natural Resources certificate program emphasizes a thorough overview of environmental laws, regulatory compliance and safety through Native American perspectives on environmental and natural resource protection and management. The certificate program is designed to provide students with the education and training to obtain entry-level positions as environmental or natural resources technicians. Additional training and education lead to an A.A.S. degree; this portion of the training deals with skills in assisting with managing projects and interpreting data, with emphasis on Native American training needs.

GENERAL EDUCATION REQUIREMENTS		Credits	Prerequisite	Semester/Transfer	Grade
