III. **RESIDENTIAL LIVING**

Housing is a basic need of any person, and as such is a most important part of our basic environment. It has a great effect on our personal development. Therefore, NTU believes in providing a clean, safe, and healthy environment for students residing on campus. As a student living in a residential facility, one is challenged to make community living valuable and rewarding with new friends and experiences. It is a privilege to reside on campus at NTU, but your success is your responsibility as a mature individual. There
are two major types of student housing available at the Crownpoint campus for eligible full-time students. The residential complex is located southwest on the main campus. There are two Efficiency Apartment complexes and one student Family Housing complex.

A. Efficiency Apartments: The efficiency apartment complexes are the two-story buildings on the west side of the campus. The efficiency apartments provide a living arrangement for qualified single adult students without dependents. The student must be enrolled as a full-time student at NTU. The efficiency apartment complexes consist of the following:

1. Rooms: Each apartment is designed to accommodate two (2) occupants per room. The rooms are furnished with the following furniture: study desk, chair, bed, and a closet. Each apartment has its own restroom with shower stall. The room has a small conventional kitchenette area with a small sink, mini-size refrigerator, and a microwave oven for snack purposes only.

2. Disability Room: NTU complies with the requirements of the Americans with Disability Act. There are two rooms in Efficiency I and three rooms in Efficiency II, which have the minimum required disability-accessible equipment to accommodate disability needs. Each building also have an elevator.

3. Lobby: The downstairs lobby of each building is considered a social area, where a person may watch TV, visit and relax. The Efficiency II has a study area.

4. Laundry Room: Efficiency I & II, have a laundry room equipped with several washers and dryers. Residents must provide their own laundry detergents. The laundry rooms are open for usage from 6:00 AM to 10 PM. Student residents are solely responsible for any clothes left behind, and NTU is not liable for any theft or damage to student’s property.

5. Janitorial Closet: A janitorial closet is available on each floor. Authorized cleaning supplies are available for the student residents’ usage. Each student is responsible for his or her own cleaning tools or accessories.

6. Personal Computer: Computer outlets are accessible in each room for personal computers. The resident student must provide his/her own complete computer system before the service will be activated. The student must submit an approval request to the Residential Manager and Information Technology Department. NTU is not liable for any theft of or damage to a student’s computer equipment.

7. Smoke Detectors: Smoke detectors are located throughout the Residential buildings, as required by National Fire Protection Association (NFPA) Codes.

8. Offices: Residential Staff are located throughout the two buildings to ensure their accessibility for students. The Residential Manager’s office is located in Efficiency I, on the second floor. The Residential Staff are on duty 24-hours in both buildings when the University is in session.
9. Parking Lots: Parking lots are available for residents of the efficiency apartments and student family housing who bring a personal vehicle. A resident student must register his or her vehicle with transportation office.

B. Student Family Housing: The student family housing complex is located south of the efficiency apartments. The student family housing units provide a living arrangement for qualified students that have one or more legal dependent (i.e., married or single with dependents). The student must be enrolled full-time at NTU. All student family housing units consist of the following:

1. Bedroom: Two 10’x10’ bedrooms with double door clothes closet. Smoke detectors are located in each bedroom as required by National Fire Protection Association (NFPA) Codes.
2. Bathroom: Each apartment is designed with a minimum standard requirement for a bathroom. A bathtub/shower combination unit is provided. Adequate storage is available in the bathroom.
3. Living & Dining Area: A 25’x10’ combined living and dining area are included in the family apartments. A fixed study area with cabinets and a storage closet are provided.
4. Kitchen: There are two types of kitchen floor plans available in the apartments: a “U” shape floor plan or an enclosed area floor plan. A cooking range and refrigerator are provided.
5. Laundry: Each apartment is designed with a small laundry room. All apartments are equipped with washers and dryers. A student can choose to provide his/her own laundry appliances after obtaining approval from the Residential Manager. Washers and dryers owned by NTU are exclusively for student family housing tenants only.
6. Storage: There is no outside storage available for student tenants. Only limited storage is available inside each apartment. The apartment’s sheltered porch can be used to store limited items such as barbeque grills, bike racks, etc. Do not clutter the entryway/porch with items that may create a fire hazard or safety issue. Motorcycles, ATVs and other small motorized vehicles cannot be parked in this area.
7. Telephone and Internet: NTU Information Technology Department may be contacted regarding questions related to telephone and internet services. Contact: http://www.navajotech.edu/about/it-dept.

H. Gender Neutral Housing: NTU strives to provide a safe, inclusive, comfortable, and supportive living environment for all students. NTU Residential program offers the option of gender-neutral housing for students who, because of gender identity or gender expression, prefer this option. This allows students who identify as transgender and gender non-confirming the ability to choose a roommate of any gender.

Housing assignments for transgender students are guided by the following values:
1. Respect for the student’s gender identity and/or expression.
2. Prioritized attention to the student’s physical safety and emotional health.
3. Enhance the student’s opportunity for success at NTU by finding the best match between the student’s needs and options available.
4. If a student is interested in a gender-neutral room assignment, staff will work with the student in a personal and confidential manner to discuss the options available. Because of limitations in the available housing options, there is no guarantee that all of a student’s preferences can be met, but we are committed to working with the student to find the best accommodations possible. If we are not able to accommodate a student’s request, an assignment will be made based on the gender identification the student listed on their admissions application.
