Bachelor of Science Degree – Accounting (121 Credits)

Bachelor of Science in Accounting is a four-year program that covers all accounting areas, including financial accounting, managerial accounting, tax, audit, and accounting information systems. Besides focusing on accounting knowledge, students will explore business processes, strategies, new technologies, and the latest software. When completing the program, students have abilities to solve problems in the accounting field with their acquired knowledge and critical thinking skills developed. Students will be ready to work as accountants, controllers, auditors, and financial managers. With a solid background from the program, students can also practice and take typical professional certificates corresponding with their career paths, such as certified public accountant (CPA) or certified management accountant (CMA).

Semester ONE		Credits	Prerequisites	Semester/Transfer	Grade
MATH 1220	College Algebra	4	MATH 1215
